11. The Madras Government Roads Traffic Control Act, 1934, is hereby repealed.

12. If any difficulty arises in giving effect to the provisions of this Act or of the Madras City Municipalities Act, 1919, the Madras District Municipalities Act, 1920, the Madras Local Boards Act, 1920, the Indian Motor Vehicles Act, 1934, or the Madras Motor Vehicles Taxation Act, 1931, as amended by this Act, the Provincial Government, as occasion may require, may, by order, do anything which appears to them to be necessary for the purpose of removing the difficulty.

STATEMENT OF OBJECTS AND REASONS.

The arrangements which are now in force in this Presidency for controlling road traffic are far from satisfactory. The control is vested in several authorities and it is found difficult and sometimes impossible to secure due co-ordination among them. The object of this Bill, briefly stated, is to unify the control and at the same time to secure that the single authority in which the control will be vested shall exercise its powers subject to proper safeguards.

2. At present, local bodies have power to make by-laws to regulate the use of, and traffic on, public roads or streets and other public places, under sections 205 (3) (c) and (4) and 114 of the Madras Local Boards Act, 1920, sections 206 (3) (c) and (4) and 114 of the Madras District Municipalities Act, 1920, and sections 205 (3) (c) and (4) and 114 of the Madras City Municipalities Act, 1919. The Provincial Government have similar powers under the Madras Government Roads Traffic Control Act, 1934, in respect of public roads in charge of, and controlled by, them. The Provincial Government have also powers to regulate and control the use of motor vehicles in public places under the Indian Motor Vehicles Act, 1934. The powers of the Government and of local bodies existing to an extent which makes uniform control of traffic throughout the Presidency impossible. It is therefore proposed that the power of local bodies to frame by-laws for this purpose should be withdrawn, and that the Government should have power to make rules for regulating the use of all public roads and streets and traffic of all kinds

in public places generally. The rules are to be made at a previous publication. Penalties may also be provided for the breach of the rules. In view of these provisions, the Madras Government Roads Traffic Control Act, 1931, becomes unnecessary and it is therefore proposed to repeal that Act.

3. Motor vehicles let or plying for hire have now to obtain, in addition to a registration certificate under the rules made under the Indian Motor Vehicles Act, 1914, and a license under the Madras Motor Vehicles Taxation Act, 1933—

- (a) a permit (the G. permit) from the Commissioner of Police in the City of Madras and the District Superintendents of Police elsewhere, under rule 56 of the Madras Motor Vehicles Rules issued under the Indian Motor Vehicles Act, 1914;
- (b) in the case of roads vested in district boards, a license from the president of every district board concerned under section 156 of the Madras Local Boards Act, 1920;
- (c) in the case of roads vested in municipalities, a license from the executive authority of every municipality concerned, under section 174-A of the Madras District Municipalities Act, 1919; and
- (d) in the case of certain Government roads, a license from the authority designated in the special rules made by Government.

Permits and licenses have thus to be obtained from different authorities who are independent of one another and this does not conduce to uniformity of practice or to the smooth working of the system. In order to bring about an understanding between the various authorities, an informal committee, consisting of the District Magistrate, the President of the District Board and the District Superintendent of Police, meets at least once a year in each district, under the executive orders of the Government. This committee should come to an agreement in regard to the routes in the district on which motor vehicles may be let or ply for hire and the number of such vehicles which may ply at each route. Permits and licenses are issued or renewed for such vehicles by the licensing authorities up to the agreed limit. While the committee comes generally to an amicable arrangement, there are certain definite defects. The majority of the committee cannot enforce its view against the President of the District Board, from whose orders an appeal lies to the district board, under section 156 (7) of the Madras Local Boards Act. Again, if an amicable decision is reached by the committee, there is no authority to correct it. There is no superior

bodies, apart from the Government, with any power to regulate the fees on which individual consumers are working. Further, the Government have no power to direct the action of the district boards in this respect. It is widely felt that motor vehicle traffic is inadequately controlled in this Province.

4. Motor lorries not plying for hire have to obtain licenses from the president of every district board and the executive authority of every municipal council concerned, under section 176 of the Municipal Local Boards and section 175A of the Madras District Municipalities Acts respectively. It will be an advantage if such lorries obtain permits from the police instead, in the same way as motor lorries plying for hire.

5. It is accordingly proposed to repeal section 266 of the Madras Local Boards and section 175A of the Madras District Municipalities Acts and to provide in the rules issued under the Indian Motor Vehicles Act, 1934, for the constitution of Traffic Boards in each district which will exercise functions similar to those exercised by the existing informal committees and for the constitution of a Central Board of Control, subordinate to the Provincial Government, which will hear appeals from the orders of the District Traffic Boards and lay down regulations for controlling the action of those boards in regard to motor traffic affecting more than one district. The decisions of the Central Board will be final and the decisions of the Traffic Boards and the Central Board will not be liable to be contested in a civil court. Only one permit will be issued and held by the police according to the decisions of the Traffic Boards.

6. The repeal of section 266 of the Local Boards and section 175A of the District Municipalities Acts entails the abolition of the license fees now levied on motor lorries and on other vehicles plying for hire by district boards and municipal councils. This creates a necessity to make good to local bodies the loss of income which will be suffered by them. It is proposed to enhance the provincial motor vehicle taxation to the necessary extent, and to contribute to local bodies out of the receipts an amount equal to the sums which they now receive from their license fees. This will be advantageous to the local bodies because the local bodies will not have after this to incur any expenses in the matter of controlling motor vehicles through their licensing system.

7. It is also proposed to abolish the existing system of levying fees, under the Indian Motor Vehicles Act, in certain districts which really amount to a tax, on motor vehicles plying for hire on Government roads.

8. Lorries are to be taxed on the basis of their laden weight instead of, as at present, on their unladen weight, and the distinction now made for taxation purposes between lorries plying for hire, lorries used for trade purposes and other lorries is to be obliterated. The common rates of taxation which will be applicable in future to all lorries will not however be fixed at a level as high as that now applicable to lorries plying for hire.

9. Section 14 of the Madras Motor Vehicles Taxation Act, 1932, provides for the deduction of the cost of collection from the gross receipts; but this is not sufficient. Government have to incur additional expenditure for a better and more efficient control of motor vehicle traffic, and it is necessary to make a deduction for such expenditure also. District boards and municipal councils will be relieved of their responsibility for the control of motor traffic and it is in the interests of these bodies themselves that there should be this better control.

10. The proposals contained in the Bill are put forward on the basis that no great increase should be made, with a view to additional revenue, in the total of the taxes and licence fees imposed on the motor industry which is heavily burdened already.
